READ YOUR SYLLABUS!!!!!

BEFORE EMAILING ME OR COMING TO CLASS ON THE FIRST DAY OF CLASS --READ YOUR SYLLABUS!!!!!

Be prepared to invest your time in this course if you expect to be successful. An expectation of at least 12 hours of study weekly for a 4-credit online course during a 16-week semester. Study means active learning. It does NOT just mean reading of the material and highlighting or underlining of the material. I understand that some of you take on-line courses because you have strange schedules that do not allow you to do classwork during regular school hours. I ask that you understand that I am available to answer your questions during regular class time hours via email.

FAQ's

Be prepared to invest your time in this course if you expect to be successful. An expectation of at ***least 12* hours of study** weekly for a 4-credit online course during a 16-week semester. Study means active learning. It does NOT just mean reading of the material and highlighting or underlining of the material

What if the syllabus date and the computer date are different?
Always go by the date on the computer once it closes I will not reopen it.

What if I think my answer is correct but I got it counted wrong?
First check your spelling, then if you are certain you are correct than email your instructor because it is possible but rare items have been mislabeled or incorrect in the computer. If that is the case, I will look at your submitted answer and rule accordingly.

The pictures in the text are not the exact pictures I am being tested on:
Yes. Most students enrolled in AP are pursing health care careers. As with patients, all views will not be the same. You are responsible for knowing the information from all angles.

The tests and quizzes are timed: I don't have enough time to look up the answers in my textbook:
Before attempting timed assignments, you must be fully prepared to master the material. It is after all a **TEST.** You would not be able to use your text in a live lecture course.
If a video says "Invalid Source" proceed by clicking the download link underneath the video.

I just finished a test or quiz, and I got a 93% but my Blackboard says I got a 20%, can you fix this?
Of course, I'll fix it, but it takes up to 24 hrs. for Blackboard to update, so wait 24 hours if you still see a discrepancy, contact me I'll make the adjustments.

The Lab Manual is to help you be successful in this online class. Though no points are awarded for this lab book, it is recommended you complete the pages as you progress through the course. Some of the Labs you cannot complete at home. There are attached videos

to help you understand those concepts discussed. Lab exercises are designed to allow student application of the concepts learned in class. Material from lab exercises will be included on tests.

You have NO cumulative Final.

Your grade may be affected by incomplete homework that was not graded. Any incomplete homework, test, lab or quiz will receive a zero in the gradebook. Please verify that your grades are correct in Blackboard and Pearson.

When you send an email to the instructor make certain to include your class including your section number.

When asking about a specific assignment please include the assignment name as well as the question number.

If the campus is closed or there is a scheduled break – I will not be available via Email!
