To create and preserve a course atmosphere that optimizes teaching and learning, all students share the responsibility of creating a positive learning environment. Students are expected to conduct themselves in a manner that does not disrupt teaching or learning, and they are expected to follow these standards:

Course discussions should be civilized and respectful to everyone and relevant to the topic we are discussing. Discussion forums are meant to allow for a variety of viewpoints. This can only happen if we respect one another and our differences.

COMMUNICATION: Announcements and emails are available through the blackboard system. Periodically check for class announcements. If there is an urgent message, announcements will be sent to all students via e-mail. Instructors usually check e-mail daily, which will be the easiest way to contact them with questions or problems. The instructor will get back to you within 24-48 hours. If they have not responded with in 48 hours, please email them again. I reserve Sundays for family so I will usually not be responding on Sundays.

EVALUATION METHODS: Your letter grade for this course is based on the total points earned in this course. The Hand Washing Competency is pass or fail. In order to pass the course, you must successfully pass the competency in addition to your letter grade earned.

GRADING SCALE:

A= 90-100% B= 80-89% C = 70-79% D = 60-69% F= < 60%

HAND WASHING COMPETENCY: Student must achieve ALL critical steps of the competency in order to pass the course.

Assignments	Points
Assignment	1,341
Discussion	190
Test	93
Total	16,24

RESPECTFUL DIALOGUE: We all come to the table with differing experiences and viewpoints, which means that we have so much to learn from each other. In order to get the most out of this opportunity, it is important that we don't shy away from differences. Rather, we should show respect for differences by seeking to understand, asking questions, clarifying our understanding, and/or respectfully explaining our own perspective. This way, everybody comes away with new perspectives on the issue and respecting others with different values or beliefs.
If someone says something that bothers you for any reason, assume that your peer did not mean to be offensive and ask your peer to clarify what they meant. Then explain the impact it had on you. If your classmates tell you that something you said or wrote bothered them, assume that they are not attacking you, but rather that they are sharing something that might be important for you to know.
