April is Autism Acceptance Month! Micah, a passionate advocate for autism acceptance, is dedicated to increasing understanding and support for individuals on the autism spectrum. Through engaging radio and podcast appearances and dynamic public talks, he emphasizes the critical importance of early diagnosis and intervention. Discover how Micah's Edison State experience and Information Technology degree continue to fuel his passion for coding and logical thinking. He will guide you step by step through his animation design process. Afterwards, you will be invited to participate in a hands-on activity, creating your own animation!
